ABB Control/Low Voltage and Automation Products including contactors, disconnect switches, timers, controls, circuit breakers, power breakers, and much more!

ABBSales.com | ABB Low Voltage & Automation Products

Powell manufactured circuit breakers for ANSI switchgear are rated as 3-cycle breakers (3 cycles or 50 msec or less from trip initiation until arc extinguish). As an option a 5-cycle rating is available. The control circuit connection is made through a front-connected umbilical which provides several advantages not available with the approach used by competitors.

Switchgear Solutions - Powell Industries, Inc.

Configuration Configurable PLC based switchgear capable of controlling and monitoring multiple generator sets, tie and load breakers in conjunction with downstream transfer switches for standby or emergency applications Configurable PLC based switchgear capable of controlling and monitoring multiple generator sets, tie and load breakers in conjunction with downstream transfer switches for ...

NexGear by PowerSecure Power Distribution, Protection and Management Solutions. NexGear by PowerSecure provides dependable, cost-effective electrical switchgear with integrated protection and controls solutions.

NexGear Switchgear | PowerSecure, Inc.

A circuit breaker is an automatically operated electrical switch designed to protect an electrical circuit from damage caused by excess current from an overload or short circuit. Its basic function is to interrupt current flow after a fault is detected. Unlike a fuse, which operates once and then must be replaced, a circuit breaker can be reset (either manually or automatically) to resume ...
