The Microsoft Partner logo indicates that CodeTwo holds significant technical expertise in the development of innovative and reliable software solutions for Microsoft platforms.

Sync your mobile device with Public Folders on Exchange

The Problem: Your smartphones and tablets easily sync with a user's Outlook Contacts folder, but there is no built-in way to sync the GAL (Global Address List) to employees' phones, or to sync a Public Folder containing contacts. This means that address book entries saved by users rapidly become out of date. The Solution: Epicenter Server gives your users their own local copy of the corporate ...

One of the best general iOS features is wifi syncing, which, just as the name implies, allows you to sync content, data, pictures, music, whatever, to and from an iPhone, iPad, or iPod touch and a computer running iTunes, without ever connecting the device with a USB cable. Of course, this feature is only useful when it's working, and a wide variety of users are encountering an issue where wi ...
