Not all drill presses have a quick disconnect at the drive spindle business end. I had a 60's Craftsman drill press with a male Jarno taper and a threaded collar and that collar went over all of that connection to hold it together. That set-up made it hard for me to find attachments that would fit!

I pick up this drill press at a local auction for \$50 in Sept 2007. The column was a beast to loosen, but with forum ideas she was free. I replaced the power cord & added a new switch. A big thanx to Brian Kachadurian for your help. I took the DP apart, and cleaned & relubbed. A nice DP addition to the shop.

Get shopping advice from experts, friends and the community! I have a friend who owns a Craftsman Model 103.0305 drill press. While I was using it, the belt pulley to the drill spindle (not the motor) broke, so I'm obligated to replace the broken part. It is a 4-track pulley with a splined shaft coupling. Sears / Craftsman does not show this drill press in their system anymore and was unable ...
