The Series II Land Rover launched in 1958 was larger, heavier and more complex than the original, and there was an ever-present need for higher powered engines. Also, the Rover petrol engines in use at the time, with the archaic Inlet-Over-Exhaust valve layout and were approaching the age of 20 years in design terms. A new, larger petrol engine specifically developed for the Land Rover was needed.

We have launched Land Rover Hell www.LandRoverHell.com as a result of the consistent problems that we have experienced with our Land Rover Discovery since its purchase, almost 3 years ago. Besides all the problems with the car, what has compounded matters is the bad service and general uninterested and unhelpful attitude of Land Rover Spain, and Land Rover head office in the U.K.

Land Rovers and Parts for sale - Parts and Classifieds

Land Rover finally phased out the mark 4 Discovery in 2017 with it being replaced by the state of the art Discovery 5. One of the most highly-anticipated vehicles of the year was really well received when finally released.

Buy Land Rover Discovery 5 Parts, Spares & Accessories ...

I have a couple of tube spanners that look flimsy, but in fact are too hard to file easily and have never shown any signs of bending. They have 2cm holes that allow a decent breaker bar rather than a screwdriver - put it through symmetrically so you can push on one end and pull on the other - or if necessary pull on one end and belt the other end with a hammer, while holding the spanner in ...
