

## *Social Engineering Scheme*

### **Social Engineering Scheme**

Social engineering, in the context of information security, refers to psychological manipulation of people into performing actions or divulging confidential information. This differs from social engineering within the social sciences, which does not contain the divulging of confidential information.

### **Social engineering (security) - Wikipedia**

Social engineering is the act of manipulating people into performing actions or divulging confidential information. Spear phishing and CEO Fraud are examples. Look no further for the in-depth info you need including techniques, real-world examples, how to prevent attacks and more.

### **Social Engineering | KnowBe4**
